PROFILE

Hospitality professional and art handler turned software developer, with a strong foundation in full-stack technologies and a proven ability to adapt, problem-solve, and collaborate in fast-paced environments. Known for clear communication, attention to detail, and a people-centered approach to building thoughtful, user-focused applications.

TECHNICAL EXPERIENCE

Nashville Software School
SOFTWARE DEVELOPER - APPRENTICE
October 2023 - September 2024
Intensive part-time software development bootcamp focusing on full stack development fundamentals and problem solving. The final half of the program are executed in a simulated company environment with Scrum methodology.

- Daily hands on application of OOP fundamentals through group and individual projects
- Developed modern applications with **JavaScript** and **React**, growing from basic components to full-featured, maintainable interfaces.
- Project management/tracking with GitHub project boards and issue tracking
- Source code/version control with Git/GitHub
- Solution Design: white-boarding and wireframes
- Leveraged **Django** for creating and editing server-generated web applications
- Created RESTful API's with **Django** REST framework
- Retrieved and stored database information with **SQLite**
- Utilized **pytest** to write python unit testing
